

Prof. Raymond Vanholder

Prof. Vanholder has published more than 900 papers, including reviews and book chapters, on adequacy of dialysis, uremic toxicity and various topics related to clinical nephrology. He serves as a member of the editorial review board of several journals and is subject editor of *Nephrology Dialysis and Transplantation* and *Toxins*.

Up till autumn 2010, he has been chairman of the European Uremic Toxin Work Group (EUTox) and member of the Executive Board and treasurer of Kidney Disease Improving Global Outcomes (KDIGO).

Up till summer 2011 he was member of the Scientific Advisory Board (SAB) of the European Renal Association - European Dialysis and Transplantation Association (ERA-EDTA) and chairman of the European Renal Best Practice (ERBP), the guidance body of ERA-EDTA. Before that, he coordinated the European Best Practice Guidelines (EBPG) on hemodialysis.

He chaired the Renal Disaster Relief Task Force (RDRTF) of the International Society of Nephrology (ISN) and in this function participated as member or coordinator in several international relief operations.

Dr. Vanholder was founding president of the Belgian Society of Nephrology (BVN-SBN), is past president of the European Society of Artificial Organs (ESAO) and of ERA-EDTA. He currently is chairman of two advocacy Non-Governmental Organisations (NGOs) at the level of the European Union (EU): European Kidney Health Alliance (EKHA) and European Chronic Disease Alliance (ECDA).
